PROFESSIONAL EXPERIENCE

Software Developer Intern

Jan 2025 – Jun 2025

Hittract — Stockholm, Sweden

- Worked with structure, frontend development and component-based flows in a product environment.
- Built reusable React components and improved existing user interfaces using React, TypeScript and MUI, increasing maintainability and consistency across the application.

Administrator

2012-2025

Jakobsbergs Vårdcentral - Region Stockholm

- Managed administration, patient communication and financial workflows in a high-volume healthcare environment while maintaining strict confidentiality.
- Developed strong ability to prioritize, communicate clearly and solve problems for people with different needs.

Earlier Professional Experience

2009-2012

Logistics - construction - sales

PROJECTS

LogFix AI | Final Project

AI-driven platform that analyzes server logs, identifies root causes and fixes or suggests fixes. Built as a hackathon/final project with a focus on making log analysis clearer, faster and more useful for debugging.

TrioPick | PWA

Self-initiated product and sports app at <https://triopick.se>. Founder & Creator of TrioPick, a Progressive Web App currently preparing for public launch. Designed and developed from concept to production with a focus on mobile-first design, accessibility and intuitive user experience.

Nextract | Finalist 2025

Full-stack B2B application developed during CHAS Challenge Entrepreneur. Built in a full team from idea and wireframes to a working solution. Technologies: React, TypeScript, Express, SQL, AWS, Scrum.

GitHub: <https://github.com/SimonKane/Nextract>

LinkedIn: [LinkedIn project post](#)

EDUCATION

CHAS Academy - Fullstack JavaScript

2024-2026

Santa Monica College - Business, Human Biology, Advanced English

2011-2012
